- **Optional Grill and Headlight Protection:** Add-on protection available for enhanced front-end durability.
- **Integrated Light Bar Mount:** Accommodates up to a 30" double-row LED light bar (perfect for Baja Designs lighting).
- **Integrated Winch Mount:** Supports winches up to 12,000 lbs for reliable off-road recovery.
- **Factory-Inspired Design:** Follows the original body lines of the 4Runner for a clean, OEM-style fit.
- **Compatibility Notice:**
 - Not compatible with front-facing cameras on 2021–2022 models.
 - Not compatible with Limited and TRD Sport trim packages.

Built for Adventure: Why the Toyota 4Runner CBI Baja Series Front Bumper Delivers Unmatched Performance

We've tested this product in real-world conditions, and here's why it stands out:

- **Lightweight yet tough:** High-quality aluminum construction delivers excellent strength without dragging down your rig.
- **Aggressive design:** Enhances the look of your 4Runner while improving off-road functionality.
- **Winch-compatible:** Ready for recovery missions with a built-in winch mount.
- **Baja Designs lighting support:** Integrates seamlessly with Baja Designs [LED pods](#) and bars for maximum visibility.
- **Improved clearance:** Better approach angles for rock crawling and trail riding.
- **Easy installation:** Designed for a direct fit with minimal modifications.

This bumper isn't just about aesthetics, it's about performance, safety, and the freedom to explore new terrain with confidence.

Everything You Need in One Box: What Comes with the Toyota 4Runner CBI Baja Series Front Bumper

Every purchase of the Toyota 4Runner Baja Series Front Bumper (Aluminum | 2020–2022) includes:

Is the Toyota 4Runner CBI Baja Series Front Bumper Right for You? Here's Who Will Benefit Most

If you're a proud owner of a 2020–2022 Toyota 4Runner and you take your vehicle off-road , whether for work, play, or pure adventure, this bumper is for you. Here's who will benefit the most:

- **Weekend warriors** who need protection for occasional trail runs
- **Overlanders** looking for a rugged bumper that supports winches and lighting gear
- **Rock crawlers** needing improved approach angles
- **Hunters, campers, and outdoor explorers** who want added security in remote locations
- **4Runner enthusiasts** who want to upgrade both looks and functionality

It's a must-have for anyone seeking the perfect balance of durability, performance, and visual appeal.

Key Features & Benefits

Let's take a closer look at what makes this bumper a game-changer for your 4Runner:

1. Premium Aluminum Build

Unlike heavy steel bumpers that can weigh down your suspension and impact fuel efficiency, this model is made from lightweight yet durable aluminum. It resists corrosion and stands up to harsh off-road abuse, mud, salt, rocks, and all.

2. Winch-Ready Design

Built with a **reinforced winch plate**, this bumper is ready for recoveries. Whether you're helping a buddy or pulling yourself out of a sticky situation, you'll have the equipment you need.

3. Baja Designs Integration

We've made it easy to mount Baja Designs lights right into the bumper, giving you powerful illumination where you need it most. Whether you're on a night trail ride or setting up camp after sunset, enhanced visibility is key.

4. Improved Clearance

Stock bumpers limit your approach angle, not ideal when you're climbing or descending obstacles. Our design ensures better clearance and more aggressive performance.

5. Direct Fitment

This bumper is engineered specifically for 2020–2022 Toyota 4Runner models. It bolts directly to your factory mounting points with minimal effort.

Why Baja Designs Matters

When you combine this bumper with Baja Designs lighting, you're making a true investment in safety and performance. Known as "The Scientists of Lighting," Baja Designs offers industry-leading LED solutions trusted by professional racers and off-roaders alike.

Whether it's their Squadron Pro LED pods or a S8 Light Bar, integrating Baja Designs with our bumper means:

- Superior light output
- Rugged durability
- Easy mounting and wiring
- Unmatched trail visibility

We recommend pairing this bumper with Baja Designs lighting for a complete, functional upgrade.
